

# Music Club

Year 2 have been trying out the recorder in Music Club and have gained numerous musical skills by learning a new instrument which requires them to listen and think about different rhythms and pitches!

In just 3 weeks the group has learnt to play basic tunes on the recorder with CD accompaniment, using notes B and A, and they have also learnt how to read the notes on the music successfully.

Hopefully the children will continue to practise playing the recorder after the club has finished, in order that their basic grasp of musical knowledge will develop further – especially the reading of music which is a skill which will last a lifetime and will enhance their learning of other instruments.
